

Motivation lettre for a visa Working Holiday Japan

Dear Madame, Sir

My name is [REDACTED], I was born and live in France. I have a high school diploma in Production graphics for printing media.

I'm taking the liberty to make a request for a Working Holiday Visa for Japan in order to stay in Japan for 10 - 11 months.

I'm a big fan of culture, history, myth and folklore. How the culture changes and evolves with the time. Since I was little, I have been interested in myth and folklore. So I have started to get to know about Japan through their manga, anime and end up falling for Japanese folklore, history, myth, legend and history. I have also started to learn Japan alone and finally in 2023 September I started to take evening Japanese language class. What I like about Japan is the culture, their tradition and how they mix traditionelle and modernity. How tradition survives and evolves with time.

For my 18th birthday, my cousin took me for a short trip in Japan. This has been really interesting. I have stayed in Tokyo all this trip and will stay with my cousin. The 2nd time in Japan was for my friend's birthday. We went to Hakata city (Fukuoka), because her favorite japanese food is Tonkatsu Ramen. And I have been able to see one of Japan's three great spears (Nihon-go). And another trip to Japan last year in 2024. For several weeks, I was able to visit Kyoto and there many temples and shrines, go to Marugame on Shikoku Island, to see Marugame Castle where there have a special exhibition this time, Hakone for the onsen and Susuki fild, Sendai to see and discover the city of tree and Date Masamune city. Hakodate and Yonezawa where the Uesugi clan is located and the birth place of Date Masamune.

This last trip in Japan made me decide to do a Working Holiday in Japan, so I can travel inside of the country and see all the different season passes. Durant this journey, I wish to complete some project:

- Continuer my Goshuin Cho, I have started in Fukuoka Dazaifu Tenman-gu;
- Working my conversational Japanese;
- And take my time to visit the countryside of Japan. Enjoy the landscape.
- Eat, there are many specialties and dishes that look really delicious;
- Visit the different shrines, temples and museums during my stay. See the exhibitions of some Japanese swords, spears and other culture tresors;

I would like to stay in Nagoya because this is between Tokyo and Kyoto. And in the Aichi prefecture where 3 bigs historic figures have been born Oda Nobunaga, Toyotomi Hideyoshi and Tokugawa Ieyasu. Sendai has been part of my trip in Japan for the last few years, and I really do like Sendai, this is why I will try to visit again and stay a little bit longer. And I would like to visit the southern cities of Japan like Kumamoto and I also want to go to Okinawa so I visit the national museum of Okinawa because their history looks really interesting. And visiting several historical places and participating in festivals in Japan too.

This is why, after this decision and objectives in mind. I chose this program.

I have searched on the internet what I need to do if I want to stay longer in japan, how much this will cost. A ShareHome or try to rent an Apartment. But I have checked and ShareHouse is more practical for me because I will travel a lot, after seeing all the conditions for renting an apartment in Japan.

Check all administrative procedures, what I need to do when I arrive in Japan, and what this administration document needs to do. What are the conditions and rules for living in Japan.

Thanks for your attention,
Best regard
