

## **Working Holiday Visa Motivation Letter**

Dear Sir or Madam,

I am writing to apply for a Working Holiday visa for Japan.

I am 24 years old and I wish to participate in this program to experience daily life in Japan while discovering the country more deeply. I have already had the opportunity to stay in Japan, which allowed me to appreciate not only its culture but also its lifestyle and environment. This experience confirmed my desire to return for a longer and more immersive stay.

During my time in Japan, I would like to explore different regions such as Tokyo, Kyoto, and Osaka, visit historical sites, temples and shrines, discover local traditions, and experience the diversity of Japanese culture. I am particularly interested in learning more about everyday life in Japan, interacting with local people, and improving my understanding of Japanese society and customs.

This experience will also allow me to continue improving my Japanese language skills through daily immersion and real-life interactions. I believe that living in different regions of Japan will help me gain a broader understanding of the country and its culture.

The Working Holiday visa represents an opportunity for me to develop my independence, adapt to a new environment, and gain valuable personal experience. I also plan to work part-time when necessary to support my stay and gain professional experience, while fully respecting the conditions and spirit of the Working Holiday program.

I am fully aware of the responsibilities associated with this visa and I am committed to respecting its rules and objectives, which promote cultural exchange between France and Japan.

Thank you for your consideration. I remain at your disposal for any further information.

Yours faithfully,

Paul Antony Vigneron
