

PVTISTES.NET - THE EFFICIENT WAY TO HIRE BILINGUAL PROFESSIONALS

Are you looking for experienced, bilingual (French and English) professionals with a valid work visa? Post your job offer on PVTistes.net and tap into a talent pool of skilled, flexible, internationally trained applicants.

ABOUT PVTISTES.NET

Since 2005 PVTistes.net has been the one-stop online platform for young professionals participating in the Working Holiday Visa program, as well as for media and government agencies promoting the program. Over the years, PVTistes.net grew into a large international community. Today, the website connects hundreds of thousands of members with the information and networking opportunities they need.

PVTistes.net offers comprehensive guides on all aspects of the Working Holiday Visa experience, as well as articles, news, targeted promotional offers, classifieds, a helpful busy forum and a job board.

Recently, we introduced an iPhone and Android app to access the website from a mobile device—more information at your fingertips!

As of June 2018, PVTistes.net is a community of 257,000 active members from all over the world.

ABOUT PVTISTES.NET'S MEMBERS

Our members usually have a Working Holiday Visa for one of the many destinations included in the program—Australia, Canada, New Zealand, etc. Many of them are from France and Belgium—the website was originally created for French nationals—and the top destination for them is Canada. In 2017, more than 6,800 French nationals travelled to Canada with a Working Holiday Visa.

These potential applicants are between 18 and 35 years old and they can work in Canada for up to two years. Permanent immigration solutions are available at the end of their work permit, if needed.

Many of these Working Holiday Visa holders are bilingual (French and English) and they are all committed to making the most of their work experience in Canada.

The Working Holiday Visa is an open work permit with very few restrictions. Applicants can work for any employer in any type of job. There's no red tape for employers—once these applicants are in Canada, they can start working right away.
